

Community Listening report: January – March 2018

1. How many people spoken to?

170

2. What are they saying?

More things to do in the local area, specifically around new activities and learning/educational opportunities.

3. Any new community ideas?

We are currently listening and supporting a group of local young people to set up a music-making community project to work with young people in the area, as this is their ambition.

4. Any quotations?

“My son is going to the taekwondo class every week and this has made a big positive difference for him and me as his parent. My son is enjoying the class and is so excited and can’t wait for the next week’s class. I hope there will one day be a class for adults, too!”

5. The best way to feedback this information to others in the community?

- Regular face-to face chat with local people, listening to their ideas and informing them about local opportunities to get involved
- Our regular WICT newsletter
- “What’s On” poster in St Mary’s
- Social media (WICT website, Facebook)
- St Mary’s “In and around” monthly Newsletter
